Technology Board Report

January 2011

It is with great pleasure that I share with you the hiring of Joel Shaw as a part-time non-continuing member of our technology staff. Joel brings with him a wealth of experience in the technology support sector and is pleased to be a member of our team. I look forward to working with Joel as the newest member of our team.

Rita Peterson has been working on increasing from three to twelve the number of student workstations available for searching the library collections as well as the Internet. This will be a huge increase in the access available for students using the K8 Media Center. Rita has been enthusiastically embracing technology and I am also very excited to get this project off the ground.
