June 3, 2013

To the school board,

The PTO has set aside money to purchase another AED. It is the same kind as the one, that is located in the middle school. We were advised that is would be beneficial to have one in the cafeteria. Having one located in the cafeteria would also benefit the round classrooms and the portable.

If you have any question, I would be more then happy to answer them.

Sincerely,

Traci Deam
