

**LESSON GOALS:**

- Help students review and update their resumes.

**ESSENTIAL QUESTIONS:**

- How do I plan for my future?

**MATERIALS NEEDED:**

- **Students' Resumes** (*from their portfolios*)

**CLASSROOM ACTIVITIES:**

1. **Discuss students' resumes.** Your students have had the opportunity to develop and update resumes. They have likely used information from their resumes already, for college or job applications. Discuss how they've used their resumes, and how they feel about their resumes. Do their resumes accurately reflect their interests and skills? Why or why not? Have students retrieve their resumes from their portfolios. Let them work in small groups to critique and edit each other's resumes.
2. **Update resumes.** If you have access to computers and printers, give students the chance to update and print their resumes. This will be their final opportunity to update their resume during high school. Make sure your students save an electronic copy of their resume – perhaps they could e-mail it to themselves at home so that they will have it handy.  
Kuder can be used to aid in resume writing. Your lead teacher will have the information.
3. **High School and Beyond Plan.** Students can also continue to put together their **High School and Beyond Plans**. They received the handout last session.

**STUDENT PRODUCTS:**

- **Resume.** Each student should update his or her resume.
