MAD SCIENCE...Morphin' Molecules:

Mad Science, Instructors

For Grades: K-6 grades:

Have you ever wondered why glow-in-the-dark glows, how to freeze water in seconds, or who put the pop in soda pop? Step into the Mad Science laboratory to find the answers! Grab a bubbling potion and be amazed as your Mad Scientist unveils the delightful world of Morphin' Molecules.

MORPHIN' MOLECULES

CHE-MYSTERY*

Create a rainbow of colors using chemical reactions & melt a solid substance into a liquid! Transform your classroom into a laboratory as you unravel the mysteries of chemistry.

GLOW SHOW*

Light is all around us & can even be invisible! What happens when the lights go off & the experiments shine on? Glow Show examines the minerals & chemicals around us that prove to be truly illuminating.

DRY ICE CAPADES*

Freeze water in a matter of seconds, produce dense clouds of vapor & make metal sizzle! Dry Ice Capades ventures through the world of manipulating states of matter with frozen CO₂.

JUNIOR REACTORS*

Get to know your chemical reactions on an atomic level! Junior Reactors will give you a crash course in constructing the elements & substances we encounter in our everyday lives.

WEDNESDAYS ONLY!

#8682-14B Jan. 23-Feb. 13, 2019 from 3:00-4:00PM
Held at the Elementary in Mr. Lepak's room #406 (round building)

Fee: \$67 (minimum of 12 students/maximum of 20)
